

FIVE GREAT REASONS TO VISIT RETAILEDGE.COM.AU THIS MONTH

1. View special discounts from newly listed suppliers
2. Advertise your job vacancies
3. Register yourself or a staff member for a retail training course
4. Subscribe to receive the very best supplier discounts on offer
5. Register for Accounts Online Services.

SECURITY UPDATE

We have received information that fraudulent credit cards are being used to purchase large ticket items including mobile phones, jewellery and entertainment equipment.

The cards are distinctive by the incorrect spelling of certain words on the rear of the card. One example is "autoorised" instead of authorised and "void" instead of valid. This offence has occurred at other Westfield centres here and interstate and a group of male and female Malaysians has been identified as the main offenders. Please ensure staff check all credit cards transactions thoroughly.

We have also had several reports of fake \$50 and \$100 notes being passed to retailers. Most have been very good copies but are distinctive by the different feel of the paper and that they can be ripped unlike normal notes. If you believe someone has given you a fake note please try and note down a description of the person and the time it occurred.

Please call Security on 0402 330 205 or Police on 131 444 if you believe that either of these offences has occurred in your store. If you would like to discuss ways of preventing theft in your store please contact our Security Manager Debbie Hasler on 8159 4340.

SUSTAINABILITY

The Westfield West Lakes Environmental Management Plan brings together several key initiatives to address climate change, waste minimisation, waste use and disposal, air quality control and energy use and reduction of greenhouse gas emissions.

Westfield Facilities Manager Marko Krndija has been working with his team to ensure the best possible result is achieved, in particular waste minimisation:

- Introducing recycling collection stations to food court for all PET plastic, bottles, cans & milk cartons.
- All loading docks are clearly identified, using signage and by having all the appropriate equipment in place to manage recycling opportunities.
- Recycling of spent oils is collected via filtrated collection bins.
- Replacement of 15 cubic meter compactor with a 20 cubic meter compactor to reduce transport costs.
- Organic waste system in place, an estimated diversion to land fill 240 tonne/year.

YTD Waste Result 5.1% reduction to land fill. A great result for the centre!

WELCOME: We are pleased to announce that Allison Pearson joins the West Lakes management team as our new Retail Manager.
